“QUALITY SALES” CORP.

Catalogued and sold by

ABNER KREISBERG — JERRY COHEN

Professional Numismatists

344 NORTH BEVERLY DRIVE
BEVERLY HILLS, CALIFORNIA

FOREWORD

This is a very interesting sale and the variety of "Quality" material offered should appeal to all collectors receiving this catalogue.

Part II of the World Famous **E. KANN CHINESE COLLECTION** is offered (see lots 2487-3022). This selection includes Chinese Turkestan, which was not included in the June 18-20, 1971 auction. In addition, it includes duplicates and varieties not previously offered. We suggest that if you do not have a copy of Part I — E. Kann auction sale that you order one for your numismatic library. The June 18-20th catalogue, plates and prices realized are available at a cost \$3.00. (Copies of E. Kann's "Illustrated Catalog of Chinese Coins" may also be ordered — \$25.00, plus postage).

The U. S. section of this "**QUALITY SALE**" offers many important type and date coins in all metals. The 1802 Half Dime stands out as one of the rarest of all U. S. coins. In the gold offerings again the variety is one of the nicest we have had in years. The selection of Coin Glass is very collectible and seldom offered (see lots 871-881). A number of the U. S. Patterns offered are from the famous collection of King Farouk.

The foreign gold and silver coins is one of the most varied and we can only suggest that you spend a little extra time going over the catalogue from beginning to end. Among the 3000 plus lots offered are many "sleepers" and coins you have sought for years. The sale closes at 5 P. M. September 13th and within 10 days after the sale ends all lots will have been mailed to the successful bidders.

Once again our sincere thanks for your continued interest in our "**QUALITY SALES**". Please mail your bid sheets in early and check your bid sheets carefully for any errors.

U. S. ASSAY MEDALS

A MAGNIFICENT OFFERING OF RARE

U. S. ASSAY MEDALS

1860-1942

Each year the Assay Commission, a committee of prominent American citizens, meets to review the past year's coinage procedures. Selected samples are weighed and assayed to be sure that the coins conform to the U. S. weights and fineness standards. As an honorarium for serving on the Assay Commission each member is given an Assay medal. Thus, the number of such medals issued over the years has been exceedingly small – usually a dozen or two pieces each year!

For the collector who wants to own part of the history of the U. S. Mint these medals are the closest ties to the actual minting process. The majority are in the finest choice proof condition.

AN INTERESTING PAGE FROM THE PAST

CALIFORNIA MEMORABILIA

1387 **THE CALIFORNIAN** – a tabloid size 16 page newspaper published late 1865. The by-line under the main heading reads “Surely there is a vein for the silver and a place for gold where they fine it”. Printed in San Francisco. Contents listed – prose articles, poetry, editorials, theatrical talk, the mouse-trap (?) and advertisements. The articles, ads, etc. are typical of the period and this paper in excellent condition, would make an interesting addition to your display of coins of this era; the more you read this paper the more interesting it becomes. EARLY CHINESE SILVER DOLLAR COINAGE

1837-1890

THE FIRST CHINESE DOLLARS

The early Formosa Dollars require an explanation as regards their "manufacture" as this coin was not struck from hard metal dies as we visualize. The coin was partially cast and partially compressed by soft-molds such as form of hard clay. These molds were made of a soft metal such as copper or brass or even porcelain, all engraved by hand. The soft molds used in the actual manufacture of the coin could only be used once; the master die being made of soft-metal wore out quickly, necessitating re-engraving of new dies. This probably is the reason that so many varieties of this particular coin (K-1, etc) may be found.
